BRITAIN SMARTS UNDER FAILURE AT DAKAR; U.S. EMBARGO ON SCRAP IRON

APPARENT ACTION OF JAPAN IN EXPANSION MOVES DISAPPROVED

PRESIDENT ROOSEVELT IMPOSES EMBARGO ON SCRAP IRON TO MOST NATIONS

By The Associated Press

The United States injected a sting into its disapproval of Japan's expansionist policies in the Far East today when President Roosevelt ordered Japan's vitally needed supply of scrap iron and steel—the crude sinews of war — cut off from this country.

Without specifically mentioning Japan, the President imposed restrictions effective Oct. 16 which will permit exports only to countries of the Western Hemisphere and to Great Britain.

In the European conflict, German long-range artillery strung along the channel coast hurled an hour-long barrage of shells on the "hell corner" town of Dover this afternoon, killing at least two persons.

Two waves of Nazi bombers struck at London during the afternoon, but the British said the attackers were driven off before they could penetrate to the center of the capital.

"London's millions grimly resigned to spending their nights in the damp gloom of underground shelters, found some consolations in black headlines flared by Minister of Air Production Lord Beaverbrook's Evening Standard: "RAF will be over Berlin every night," the headlines declared.

The newspaper's air correspondent said that, as the winter nights grew longer, the RAF's attacks on the German capital would lengthen to "eight to 10 hours."

Spain May Enter War.

Events shaped rapidly today toward the entry of Spain into the war on the side of the Rome-Berlin axis—apparently to permit an attack of Britain's great rock citadel at Gibraltar by German troops passing through Spain.

Berlin reported that inclusion of Japan in the globe-girdling axis program also appeared to be in the offing—as a counter to possible closer British-American collaboration—making a 4-1 combination against Britain's lone stand.

In Tokyo, a qualified informant said it was expected that Japan would actively support Germany if the United States entered the European war.

This informant said the Japan-

Texas Business Trend in August Turned Upward

AUSTIN, Sept. 26.—(AP)—Surveying Texas business for August, the University of Texas Bureau of Business Research reports these facts:

Southern Pine production was up 15.5 per cent over July.

Electric power consumption increased 1.4 per cent.

A total of 105 new firms chartered, compared with 88 in July.

Livestock shipments stopped their downward trend for 1940.

Poultry shipments climbed upward.

Postal receipts in 47 cities were 6.4 per cent ahead of August last year and 1.5 per cent above July.

The same 47 cities showed a 26.8 per cent gain in building.

Student Slain

Robert Lewis Forman, 18, student at the University of Pennsylvania, was found slain near Rochester, N. Y. He was a sophomore.

AIR WAR CONTINUES WITH UNABATED FURY BY OPPOSING SIDES

LONG-RANGE GERMAN GUNS SHELL DOVER ACROSS THE CHANNEL ON THURSDAY

LONDON, Sept. 26.—(AP)—Long range German guns flung shells across the channel into Dover this afternoon while the Nazi assault on London was renewed by two waves of bombers.

The shells bursting in Dover killed a man and a woman. For over an hour the bombardment continued.

The warplanes which flew against London did not penetrate to the center of the city. British authorities said the attackers were driven off.

The British air ministry declared that in heavy attacks against Berlin and seven German occupied ports on the continent last night the Royal Air force came off without the loss of a plane.

Berlin objectives hit were the great Templehof airport, power stations and rail communications, the ministry said.

During last night's attack on the German naval dockyard at Kiel the flash of one big explosion was seen "very close" to the 26,000-ton German battleship Scharnhorst, the air ministry news service said.

Early in the evening German planes again were reported over Wales and southwest England.

German-British aerial duel reached new peaks today with Berlin's longest raid alarm of the war, the heaviest bombardment of the German-held "invasion coast" and the

Cotton Ginnings Running Less In Navarro County

There were 22,251 bales of cotton ginned from the 1940 crop in Navarro county prior to Sept. 16, as compared with 37,671 bales at the same time last year according to figures released Thursday by George Campbell, special agent.

COMPETITION DAIRY CATTLE IS FEATURE THIRD DAY OF FAIR

JUDGING IN HEREFORD DIVISIONS COMPLETED AND WINNERS ANNOUNCED

By CHARLTON GUNTER, Daily Sun Staff.

Competition in dairy cattle classifications featured the third day of the Corsicana Livestock and Agricultural Show Thursday and judging was scheduled to be completed in all other departments. The main event on the Friday calendar will be the annual auction of baby beef which will start at 9:30 a. m. with H. L. Hull of Pecos as auctioneer.

The Corsicana High School Band was featured on the free entertainment program on the midway Thursday beginning at 5:45 p. m., with a special exhibition also slated by the Y. M. C. A. tumbling team. An old fiddlers' contest is scheduled Friday evening, and the concluding number on Saturday will be a special concert by the Sam Houston State Teachers' College band. Wednesday's program included a concert by the State Home Band and a presentation of Happy McCleary and his trained dog, Buggah.

A senior calf entered by Cecil Parker of the Powell Future Farmer Chapter was acclaimed the grand champion in the boys' baby beef competition and the owner was rewarded with an all-expense trip to either the Houston or Fort Worth Fat Stock Shows next spring. John Holloway of the Roane 4-H Club was selected as the grand champion showman by Judge Rufus Peeples of Tehuacana and was given a cash prize by the Fair Association.

Hereford Winners.

Lanius Hereford Ranch of Godley, Texas, was the major winner in the pure bred Hereford competition Wednesday, amassing a total of six first place ribbons, three seconds, six thirds, and one fourth out of the twenty-two classifications, and the list included one grand champion.

Edens Hereford Ranch of Corsicana ranked second with four first places, four seconds, three thirds, a fourth and a fifth place. In third place was R. L. Wheelock with three first places, five seconds, three thirds, two fourths, and three fifths. Black and Largent of Granbury was fourth with two firsts one second, three thirds, two fourths and a fifth place ribbon. Ten exhibitors competed with John C. Burns of Fort Worth as the judge.

Don Prince Domino second from the Lanius string was named grand champion bull, with Edens Publican Domino Second, owned by Edens and Edens, named reserve champion. The grand champion female was Doniette Jordan from the Black and Largent string, with Blue Bonnett Twentieth from the Allison and Allison herd as reserve champion.

Included in the competition were the strings from Harrisdale Farms of Fort Worth, Jenkins Hereford Ranch of Galveston, Jim Hering of McGregor, Lanius Ranch at Godley, Joe Cross of Troup, G. P. Mitcham of Cisco, Black and Largent of Granbury; and R. L. Wheelock, Edens and Edens, Allison and Allison all of Corsicana.

Junior Division.

Winners in the junior yearling division of the club boys competition were: 1. Billy Bob Sellers, Coolidge FFA; 2. John Holloway, Roane 4-H Club; 3. Lloyd Kent, Jr., Powell FFA; 4. Thomas McClendon, Richland 4-H club; 5. Charles Rhodes, Jr., Barry 4-H and FFA; 6. Jodie Gerron, Ennis FFA; 7. Joe Perkins, Dawson 4-H Club; 8. Jack Burke, Corsicana 4-H Club; 9. Edgar Earl Johnston,

Canadian Armed Merchant Cruiser Seized Nazi Ship

OTTAWA, Sept. 26.—(AP)—The Canadian armed merchant cruiser Prince Robert has captured the German express cargo ship Weser off Manzanillo, Mexico, Navy Minister Angus MacDonald announced today.

The Weser, a 9,179-ton ship which plied as a passenger liner on the North German Lloyd's Bremen Pacific service, took refuge in Punta Arenas, Costa Rica, shortly after the war began. She moved thence to Manzanillo, arriving late in July.

MacDonald said the Weser left Manzanillo yesterday and was seized last night.

(Mexican West Coast waters, in which the capture apparently was made, are included in the American neutrality zone.)

The captain and most of the

PRESIDENT ORDERS SCRAP IRON EMBARGO EFFECTIVE OCT. 16TH

WOULD PERMIT SHIPMENTS ONLY TO WESTERN HEMISPHERE AND BRITAIN

WASHINGTON, Sept. 26.—(AP)—President Roosevelt today, in effect, clamped an embargo on shipments of scrap iron and steel to Japan effective October 16—but left open the way for exports to nations in the Western Hemisphere and to Great Britain.

The action came within 24 hours after the Export-Import Bank had announced a new $25,000,000 loan to China, whose stubborn resistance has been the chief obstacle to Japanese expansion in the Far East.

(In Tokyo a Japanese informant declared that Japan at last had recognized the United States as an unalterable opponent of Japanese expansion. He said that Japan is expected to give active support to Germany if the United States enters the European war.)

A White House Statement announcing the new export restrictions did not explain why continued shipments would be permitted to Britain, but this exception to the Western Hemisphere limitation obviously was in line with the administration's policy of aiding the British in their war with Germany and Italy.

Nor did the statement mention the Japanese by name. But the action had been expected as a move against Japan in line with frequent United States declarations against disturbance of the status quo in the Far East.

Jap Purchases Heavy.

Japanese purchases of American steel and iron scrap to help supply her military machine—active for three years in China and now apparently on the move against French Indo-China—have declined this year but still remain arge, according to commerce department figures. Britain is now the biggest purchaser of the metal.

Italian purchases were substantial until the British blockade stopped shipment. Records showed no exports of the metal to Italy during July.

A statement issued by the White House said Mr. Roosevelt had approved additional controls over exportation of iron and steel scrap "with a view to conserving the available supply to

HOUSE COMMITTEE ASKS ADDITIONAL BILLION AND HALF

WOULD BRING U. S. ARMY STRENGTH TO 1,399,441 MEN BY NEXT JULY

WASHINGTON, Sept. 26.—(AP)—The house appropriations committee recommended today that congress vote an additional $1,469,993,636 in cash and contract authorizations to bring the nation's army to 1,399,441 men by next July.

The committee approved a bill which would increase the session's total appropriations and contractual authorizations for the armed services to a peacetime record of $12,136,832,516. This did not include approximately $4,700,000,000 authorized for a "two-ocean navy" program.

An item of $1,062,976,496 to feed, clothe, equip, pay and otherwise provide for national guardsmen, reserve officers and draftees was in addition to $338,263,902 appropriated early in the week for barracks and other housing needs.

The bill included $165,000,000 of appropriation and $150,000,000 of contractual authority for expediting production of airplanes, the goal for which was said to be 36,000 a year by 1942.

Other major items included $107,445,499 for purchase of 78,016 motor vehicles, $24,825,108 for administration of the draft; $36,000,000 for anti-aircraft batteries for auxiliary naval vessels now being acquired; and 36,444,640 to supplement the 12,000 pilot training program.

The committee said that if the appropriation bill won approval, the war department planned to bring into the service during the remainder of the current fiscal year a total of 1,024,441 men in addition to a force of 375,000 army regulars previously appropriated for.

Of this number, not to exceed 800,000 may be taken from those to be registered October 16 for military service.

Twelve Billion Defense Fund.

The committee said the $12,136,832,516 defense fund would:

Increase the regular army from

ASSOCIATED PRESS BUILDING IN LONDON BOMB AREA

Meager advices sent through British censorship indicated the Associated Press building in London had been hit by a German bomb early Wednesday during a violent air raid on mid-London. The AP building, the front of which has been sandbagged since the outbreak of war, is a five-story structure housing both the AP news and photo departments, a block off Fleet Street and two short blocks from the Thames embankment.

SPECTER OF STARVATION OVER EUROPE HAS NOT ENDED CAREER OF NOTORIOUS CURSE PLENTY

By WADE WERNER.

OTTAWA, Sept. 26.—(Correspondence of the Associated Press)—The specter of starvation over Europe has by no means ruined the career of that notorious international nuisance, the curse of plenty.

Not here in Canada, anyway.

Canada's big headache is bumper wheat crop, coming on top of a record carry-over and in the midst of a war which is restricting rather than expanding the foreign wheat market.

The latest official estimate shows a Canadian wheat crop for this year of 561,000,000 bushels, a crop exceeded only once before in Canada's history. That was in 1928, when 566,000,000 bushels clamoring to be converted into bread and eaten.

But Canada herself consumes no more than 13,000,000 bushels annually, and even optimists do not expect she will be able to export more than 200,000,000 bushels.

That would leave 532,000,000 bushels still unsold when next year's crop is harvested.

Even the problem of storing such a gigantic surplus is a headache, for the country's total elevator capacity is only 420,000,000 bushels.

Wheat-growers are up against storing a large part of their crop on the farm. But farmers hesitate to build the necessary granaries until they know someone will advance them money on such farm-stored wheat. Commercial banks have declined to take the risk; growers accordingly are demanding that the dominion government advance cash against farm-stored wheat.

That makes wheat a political question—nothing new, of course, in wheat-growing countries. But behind it all is the glaring economic fact that Canada's wheat production is completely out of line with her export possibilities.

Even if room enough can be found to store all of the unsold surplus, and farmers are tided over the winter with government subsidies, the problem of disposing of those 532,000,000 surplus bushels will remain.

CORSICANA TRAFFIC RECORD SPOTLESS FOR EIGHT MONTHS

DALLAS LEADS BIG CITIES OF TEXAS IN SMALL NUMBER OF TRAFFIC DEATHS

AUSTIN, Sept. 26.—(AP)—Dallas with 14 traffic fatalities of 4.77 for each 100,000 population, bested the safety record of other big Texas cities for the first eight months of the year, the Public Safety Department reported today.

Houston, San Antonio and Fort Worth followed in order with respective rates of 7.77, 9.48 and 11.81.

Corpus Christi won honors in the 50,001 to 100,000 population bracket with three deaths and a rate of 5.22. Other ratings in this division were El Paso, 6.21; Austin 6.83; Amarillo 7.77; Galveston 9.94; Beaumont 11.88; Waco 16.12.

Tyler, with a spotless record, topped the 25,001-50,000 population

CORSICANA'S OIL DISCOVERY 45 YEARS AGO BE RECALLED

MEMORIAL PLAQUE TO BE PRESENTED AT FORT WORTH OIL CONVENTION

FORT WORTH, Sept. 26.—(AP)—Corsicana, home of the first commercial oil pool opened in Texas will receive a bronze memorial placque commemorating the 45th anniversary of the discovery, E. L. Smith, president, announces that the Texas Mid-Continent Oil and Gas association will present the memorial to Corsicana representatives to the Association's annual convention here Oct. 31-Nov. 2, and, after it is mounted on a miniature derrick or other base, will be dedicated with ceremonies at Corsicana.

The association announces it is seeking the driller and members of the crew on the original well, as well as officials of early companies there, to take part in the dedicatory ceremonies. It also is planned to exhibit at the convention the rotary rig used at Corsicana, which was the first employed in Texas.

Since completion of the first commercial well at Corsicana for 2 1-2 barrels daily production, nearly 200,000 oil wells have been drilled in Texas at a cost of around four billion dollars. From a production of 1,450 barrels the first year at Corsicana, Texas output has climbed to a half billion barrels a year. Texas produces nearly two-fifths of all petroleum produced in the United States, and now has more than half of all the known oil reserves of the nation.

VOTERS OF NAVARRO COUNTY AGAIN FACE QUESTION OF BEER

ELECTION WILL BE HELD FRIDAY---POLLS OPEN 8 A. M. AND CLOSE 7 P. M.

Navarro County citizens will vote Friday, Sept. 27, on the beer question. The sale of beer has been legal in the central section of the county for the past several year. The voters Friday will vote whether to continue the present status or vote to outlaw the sale of beer.

The election recently was ordered by the Navarro County commissioners court on a petition presented several months previous to that time. Spokesmen for the "drys" requested the election be held on a Saturday, while court set Friday, Sept. 27, as the time.

Election judges received their supplies for the election this week at the county clerk's office.

The Daily Sun and Semi-Weekly Morning Light will compile election returns on the night of the election. Election judges have been requested by Paul H. Miller, county judge, to telephone (collect) to the Daily Sun the results of the various precincts as soon as possible on election night.

Election judges in the four precincts of Corsicana request voters bring both their county and city poll tax receipts with them as this is a statutory requirement.

The polls will open at 8 a. m. and will close at 7 p. m.

Polling places and presiding judges in Corsicana are:

Ward 1—McKee Lumber Company, W. F. Morris.

Ward 2—No. 2 Fire Station, Horace Carson.

Ward 3—Courthouse, George W Boyd.

Ward 4—City Hall, J. D. Carroll.

25 Years Ago Today

By The Associated Press

Sept. 26, 1915—British, in fierce fighting, carry positions north of Ypres, but lose them again.

DISAPPOINTMENT IS VOICED AT ACTION IN AFRICAN AREA

FIGHT ABANDONED AFTER THREE-DAY BATTLE; BRITISH WARSHIPS SUFFER

LONDON, Sept. 26.—(AP)—Great Britain smarted with disappointment today over abandonment of the attempt to seize Dakar, key port of French West Africa, after a three-day battle in which the admiralty guardedly acknowledged that British warships had suffered damage and casualties.

To many, the incident recalled memories of British setbacks in Norway, Flanders and Somaliland, but the public was too much concerned with the battle of Britain to voice widespread criticism, and there was no indication the ill - starred venture had weakened Prime Minister Churchill's government.

Neutral diplomatic quarters characterized the withdrawal from Dakar as a "resounding diplomatic defeat" and foresaw a lessening of Gen. Charles De Gaulle's chances of winning other parts of the French colonial empire to the side of the "free Frenchmen" still fighting with Britain.

The press, for the most part, contented itself with publishing the government communique on the withdrawal under such headlines as "Fleet withdrawn from Dakar—No wish to fight French."

The News Chronicle alone sounded a note of censure, printing an article by Vernon Bartlett independent member of parliament, storming against "delay and hesitation" and declaring "it has been decided" that Germany "must be allowed another success."

The decision to withdraw the "free French" forces and the supporting British fleet from Dakar was made, the British ministry of information said, "when it became evident that only a major operation of war could secure the fall" of the port.

While acknowledging that hits had been scored on British warships by French shore batteries, the communique did not specify the extent of damage or casualties.

The British reported two of three French submarines which took part in the engagement were sunk and indicated hits had been scored on the 35,000-ton French battleship Richelieu.

The British communique placed upon the French forces at Dakar responsibility for opening hostilities, declaring they opened fire on De Gaulle's emissaries and

AFTER MORE THAN YEAR OF WAR BRITISH RESERVE BUYING POWER IN U. S. IS LARGELY UNTOUCHED

By FREDERICK GARNER.

NEW YORK, Sept. 26—(AP)—After more than a year of war, British reserve buying power in the American market remains largely untouched, analysis of trade and banking figures indicated today.

So far as the available figures show, England still has laid by for a rainy day most of the gold and American securities she held at the outset of the conflict.

British purchases of war supplies in the United States have been stepped up since the fall of France and the intense bombing of the British Isles.

Nevertheless, it appears, England could continue buying at an accelerated pace for many months before the war chest is scraped bare of reserve gold, rubber and tin from British Empire sources or clearing through London are giving England more than $1,000,000,000 annually in dollar exchange to toss into the trade scales it was figured.

Helping increase the British supply of dollar exchange are the United States purchases of rubber, tin and other strategic materials for war reserves. These come chiefly from British Empire producers and from the Netherlands East Indies, now clearing trade by way of London.

Among visible items in the British-U. S. balance, it seemed, England in the first year of the war was almost able to balance off her Empire merchandise deficit with newly-mined gold.

The Empire is estimated to be turning out around $700,000,000 in gold yearly, chiefly from Canadian and South African mines. Advances of capital for building of aircraft and munitions plants in this country, together of dollar exchangs not shown in the trade figures.

However, treasury data indicates the United States kingdom has liquidated only a minor part of British holdings of American securities.

Britain Anxiously Awaits Decision Of Spain And Japan On Joining Axis Powers; Situation Created Be Grave

By DEWITT MACKENZIE
Associated Press Staff Writer.

There have been few such anxious moments in the war for England as the present while she waits to learn whether powerful Japan and strategically placed Spain will add their weight to that of the Berlin-Rome axis.

Adherance of either Nippon or Spain to the axis would shake Britain badly. Should both of them rush in for the kill, it would create a situation of extreme gravity.

However, should this position of four-against-one materialize, the question at once will arise as to whether England will have to face this storm alone or whether she may expect aid. First off, we shall want to know what Russia will do, for this vast union would be a mighty factor.

The muscovites may be credited with expecting that sooner or later (probably sooner) they must fight both Germany and Japan.

Then where will Turkey stand. This most powerful of the Balkan states, leader not only in the Balkans, but among Near Eastern countries and guardian of the vastly important Dardanelles, is England's good friend, but has been sitting tight thus far— in large part because of Russian pressure. They told me in Ankara not long before the war that the Turks placed their trust in Britain as in no other nation, and there is no indication of change of heart.

Another big "if" is the great moslem world which might follow the lead of Egypt—thus far England's ally. A holy war would raise hob with the nations against which it was directed, for there are few things more terrible.

It certainly will seem an ironic circumstance to British Premier Churchill and his fighting flock if they have to take on this added burden now, just as they have demonstrated that they may have chances of beating Germany and Italy. It is, of course, the strength of the British resistance and counter-attack which has driven Hitler to try to draw Spain and Japan into the conflict to help finish the job.

Of the two eventualities—the entrance of Spain or of Japan into the war—the Spanish possibility seems to me to present the greater immediate danger to Britain. The hostility of Spain would threaten the security of Mother England herself.

See MACKENZIE, Page 4.

CIANO'S HURRIED TRIP TO BERLIN IS WATCHED CLOSELY

OBSERVERS SEE INDICATION OF BROADENING OF AXIS POWERS PLANS

BERLIN, Sept. 26.—(AP)—Italy's foreign minister, Count Galeazzo Viano, was en route to Germany today as diplomatic activity appeared to foreshadow early developments in the axis war program, perhaps aligning new allies against Britain.

German officialdom declined to discuss Ciano's purpose.

The impression was growing that Spain was on the verge of indicating in some substantial measure her desire for closer relations with the axis, and a more intimate understanding with Japan—as a counterweight to possible closer British-American collaboration—seemed to be in the offing.

Regarding all the speculation about impending events, an informed commentator said:

"Everything is fluid—fluid, but moving swiftly. But the moment for revealing the direction in which events are moving hasn't arrived, and guesses are futile."

BRITISH

(Continued From Page One)

19th consecutive night of bombing for London.

The British, in their third successive major night raid on the German capital, reported hits on the great Templehof airdrome, a munitions factory and a railway yard. Important power stations also were attacked, the air ministry said.

The great naval base at Kiel was another night target.

When daylight again streaked the channel skies fresh British airmen, heavily bundled against the chill, roared off to a new offensive thrust inspired by the constant threat of invasion from the German-held French coast.

Like the rumble of thunder in a channel storm, their bombs burst today in the region of Calais and Cape Griz Nez.

This daylight assault—45 minutes in which the terrific detonations were heard on the English side as virtually one continuous reverberation—followed a three-hour attack on the light of a pale moon from Boulogne to Dunkerque.

Channel Is Fairly Calm

The weather on the English channel may have motivated the intensified British pressure on the "invasion coast." Choppy seas which had rendered impossible any navigation by shallow-draft boats—such as German invaders might use—quieted as the day came on.

Even so there was a slight swell in mid-channel, and a cold northeat wind failed to break the sunrise haze masking the French coast.

In the first attack, observers on the cliffs of the English shore could see the flash of explosive and incendiary bombs, the sweep of searchlights and the glare of flares along the whole stretch of coast nearest England.

At times parts of the sky were almost as bright as day and the English earth seemed to tremble from the explosions little more than a score of miles distant.

Air Attacks Heavy

RAF night raiders struck at Germany's Kiel naval base while their foemen dumped fresh loads of destruction on rubble-strewn London.

Eye-witnesses said incendiary bombs "fell like rain," in a southeast London district, destroying a church and working-class houses.

Two wings of a 110-year-old convent were destroyed.

A children's hospital in southeast England was damaged, but the children escaped.

Authorititative London circles, commenting on today's German high command comunique, said:

"With regard to German figures for air losses, 26 German planes were in fact shot down yesterday, against four British planes with three pilots safe. In consequence, German losses in trained pilots and air crews amounted to no less than 70 to one." (The 70-to-1 ratio presumably is based on an estimated average of three men killed or captured for each Nazi raider shot down.)

Little Damage at Gibraltar.

MADRID, Sept. 26.—(AP)—Tuesday's French air raid on Gibraltar caused "surprisingly little" damage Mrs. Jean Dixon, American wife of the British air attache in Madrid, said today.

Mrs. Dixon said about 200 bombs were dropped, that four persons were killed and a dozen injured.

A bomb, said Mrs. Dixon, fell close to the British battle cruiser Renown, which immediately stood out to sea. (The Vichy admiralty said a bomb hit had been scored on the Renown.)

Germans Shell Dover.

LONDON, Sept. 26.—(AP)—German long range guns from across the channel shelled Dover for an hour this afternoon, killing at least two persons.

Five Fliers Arrested.

AMSTERDAM, (Via Berlin) Sept. 26.—(AP)—Five men who landed in The Netherlands in a British plane were arrested near The Hague last night, authorities announced. Three of them were said to have been Czechs.

Officials, hinting that British fliers were landing in Holland, for liaison with Dutchmen who have knowledge of German war plans, yesterday posted rewards for the capture of such aviators.

Three German Supply Ships Lost.

LONDON, Sept. 26.—(AP)—British submarines have torpedoed three German supply ships, the admiralty announced today, but the communique did not specify th date of place of the engegement.

May Wear Rag Helmets.

LONDON, Sept. 26.—(AP)—Britons soon may be wearing "rag" helmets due to a shortage of regulation "tin hats" made of steel. The steel is needed for guns, tanks and ships.

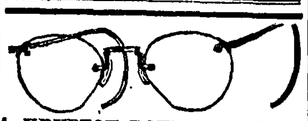

Experts have produced a substitute "crash' hat made chiefly of rags for armament workers. It is half the weight of the regulation helmet and only slightly more pregnable.

They will be placed on sale to civilians.

Nineteen Nazi Planes Shot Down.

LONDON, Sept. 26.—It was officially announced this evening that 19 German aircraft, including 11 bombers, had been destroyed by British fighters today.

Notice To Election Judges

You are requested to telephone (Collect) the results of the beer election in your precinct to the Daily Sun office as soon as the tabulation is completed, Friday night, Sept. 27.

It will be impossible to ascertain the complete county result without your co-operation.

Thank you.
PAUL H. MILLER, County Judge.
Navarro County, Texas.

DAKAR

(Continued From Page One)

subsequently on the British naval squardon.

French Say Incidents Closed.

VICHY, Sept. 26.—(AP)—The Petain government's admiralty announced today the arsenal and certain port buildings were hit when French planes bombed the British fortress of Gibraltar yesterday.

A communique said one French plane was shot down.

Violent French resistance in Dakar and reprisals against Gibraltar forced British forces to give up their action against the Senegal port, authorized French sources said today, and so far as the French are concerned the incidents are closed unless reopened by the British.

Heavy damages inflicted upon the British naval squadron off Dakar, these sources said, made it impossible for the British to continue the attack without reinforcement by units needed elsewhere.

The French admiralty said the 29,150-ton British battleship Resolution had been struck by a torpedo and forced to retire without firing a shot.

French coastal batteries scored a direct hit on the 31,100-ton battleship Barham, while the heavy cruiser Kent was struck both by bombs and a torpedo, the admiralty added.

The admiralty announced the British fleet off Dakar ceased its fire shortly after noon yesterday and sailed away toward the south.

COOL WEATHER

(Continued From Page One)

coast, came reports of record lows.

Galveston had 56, lowest for the date in weather bureau history that goes back to 1871. The all-time September low of 54 was made on September 28, 1908, and indications were it would be bettered tonight. Houston's 54 was an all-time record for the date.

While the first frost of the season whitened low spots around Kansas City, Texas Panhandle temperatures dipped down into the thirties for the first time this Autumn. Muleshoe was the coldest spot in the state with a bleak 30, only two degrees warmer than Kansas City. Not noticeably warmer were Crosbyton with 41 and Haskell with 40.

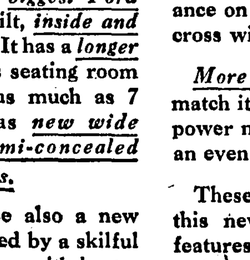

Seasonal lows were recorded at many places, including Corsicana, 49; Pampa 45, Tyler ...rman 48; Wichita Falls

New Low For Season

A new low for the season was registered here Wednesday night when the thermometer dropped to 49. The cool wave started Tuesday night following a light shower. The maximum temperature Wednesday was 75.

Announcing the big

NEW 1941 FORD

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in *size.* It's the *biggest Ford* we've ever built, *inside and out.* It's *wider.* It has a *longer wheelbase.* Its seating room is *wider* by as much as 7 inches. It has *new wide doors* and *semi-concealed running boards.*

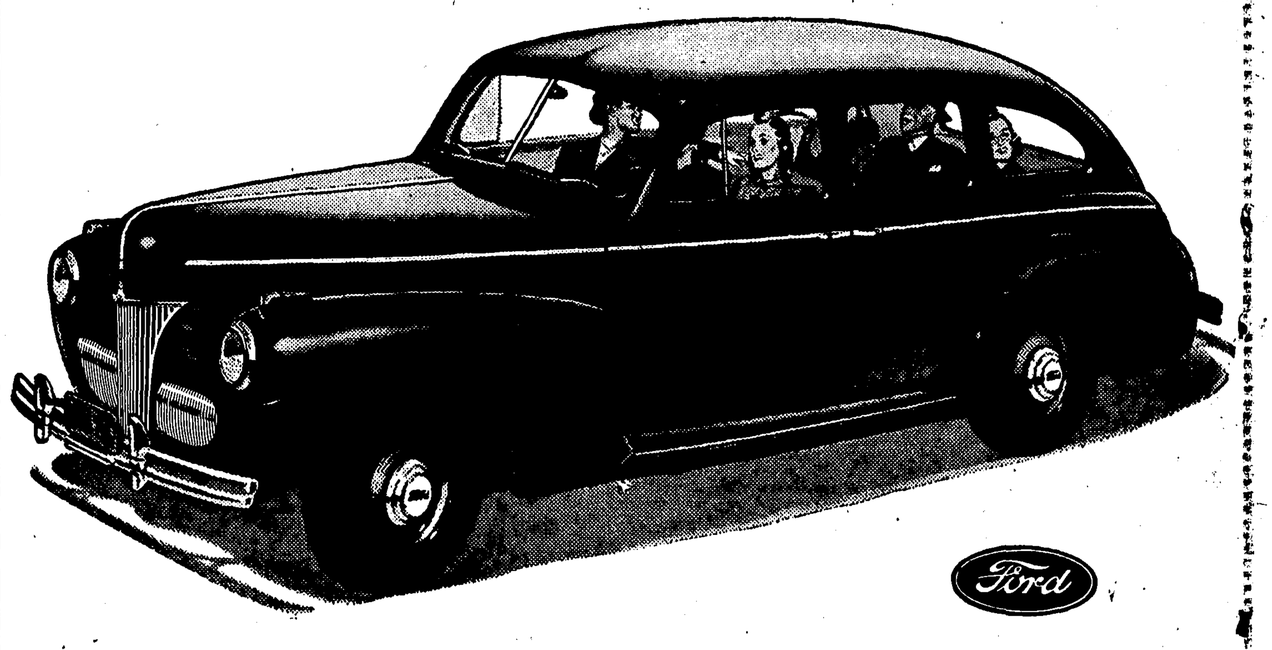

You'll notice also a new beauty, achieved by a skilful blending of mass with *longer flowing lines. Larger windshield and windows* give better vision all around.

One of its biggest advantages is the *new soft ride.* New, slower-action springs give a slow, gentle, gliding movement. A *newly designed stabilizer* helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

Wake Lazy Insides All-Vegetable Way

Thousands turn to this way to get relief when they're lazy intestinally and it has them headachy, bilious, irritable, listless: A quarter to a half-teaspoonful of spicy, aromatic, *all-vegetable* BLACK-DRAUGHT on your tongue tonight, a drink of water, and there you are! Thus, it usually allows time for a night's rest; acts gently, thoroughly next morning, so relieving constipation's headaches, biliousness, bad breath.

BLACK-DRAUGHT'S main ingredient is an "intestinal tonic-laxative," which helps impart tone to lazy bowel muscles. The millions of packages used prove its merit. Economical, too: 25 to 40 doses, 25c.

L. E. BIRD DIES AS RESULT OF HEART ATTACK AT CURRIE

L. E. Bird, aged 55 years, died at Currie about 2 o'clock Thursday morning with what officers said apparently was a heart attack. He stopped his automobile and sought the Currie nightwatchman. Death resulted before a physician arrived.

C. A. Steele, justice of the peace at Richland, conducted an inquest and reported "death was due to natural causes."

Bird, an employee of a produce house at Wortham, was reported en route to Wortham from a visit with relatives at Alvarado, Texas, when he became ill.

The body was brought to the Corley Funeral Home here and was prepared for burial.

Funeral arrangements had not been perfected early Thursday afternon pending the arrival of relatives.

Home Coming Service Sunday at Navarro Mills Baptist Church

There will be a home-coming service at the Navarro Mills Baptist Church, Sunday, Sept. 29. Rev. J. J. Sykes, former pastor, will preach at the 11 o'clock hour and Rev. Lester Roloff will preach in the afternoon.

Dinner will be served at the church. Everybody welcome. Come and get a blessing.

W. J. BARNES.

STARVELING SOULS, MONEY MAD, CAUSE OF WORLD DISASTER*

Break-Down of Human Factor the Real Root of Present Catastrophe—Some Revelations of the War—Bible's Prescription For Fat And Sturdy Spirits.

BY WILLIAM T. ELLIS

Day by day there is slowly leaking out from Europe the news of the real cause of the collapse of some of the fallen nations. Simple, sheer, sordid love of money led sabateurs, and even statesmen, to betray the cause of their countries. In some instances it was for cash in hand—blood money as truly as the thirty pieces of silver received byJudas. In other cases it was devotion to the special classes. Thus the love of money corroded the souls of men who should have been patriots and leaders.

This same deadly spirit of covetousness was characterized the progress of revolutionized Russia and Germany. While the common people bear unusual burdens of poverty, the high party leaders live in a luxury outrivalling that of the aristocrats of the old era.

In a word, one ultimate acid test by which men should stand or fall is the money test. A person's attitude toward money determines his real attitude toward his fellow men, and toward life in general, and toward God.

A Grim Look Ahead.

Grim current events support the moralists in counselling a revised attitude toward wealth. Each day's dispatches from Europe report the spoliation of more and more moneyed men The experiences of the Russian revolution are being repeated. Yesterday's millionaires are being made penniless paupers. The old foundations of financial security, which once seemed so sure, are being swept away. Entire nations are being impoverished. The spectre of famine looms large on the eastern horizon. Where expropriation of property is not at work, confiscatory taxation is. The "haves" are rapidly becoming the 'have nots."

All of this is at the moment simply incredible to us of North America. That the world war, or the revolution which will probably follow it, may strip these prosperous peoples of their possessions is beyond our power to visualize. Yet I saw it happen in eastern Europe and Asia. And my counsel to friends has been to forsee a manner of life for themselves freed from dependence upon money; a life of simplicity; on on a subsistence basis, and orientated toward helpfullness in whatever emergencies arise. I have seen men and women rise to the heights of their possibilities when deprived of all their earthly goods. Drastically, they were emancipated from the domination of money, and their latent spiritual powers had opportunity for expression. Surely, it is simple prudence, while there is yet time to break the shackles of money from our spirits.

Who Reigns?

Changes in rulers and forms of government have been rapid during recent months; but a greater and more fundamental change is that which millions have had to face in the sovereignty over their own spirits. Who rules my life? To what power do I give allegiance? Am I a single-souled man, dedicated to the will of God; or am I the slave of mammon and of the status quo? Would I be more of a man without my present circumstances, or less? Is poverty more terrible to me than alienation from my Heavenly Father? Do I choose, in the very depths of my being, to belong to God or mammon? This issue of life's supreme loyalty determines a man's measure and his fate.

The Poor Rich Men.

"He has money," is the common characterization of a rich man known to me. But that is incorrect. In truth, money has him. He is in the death clutch of material possessions. His spirit has shriveled up. His passing would cause less of a ripple in the community than that of the village blacksmith. He is a scarecrow commentary upon the proverb, "The liberal soul shall be made fat;" with its converse corollary that the sordid soul shall be made thin. I think I am sorrier for this poor miser than for any other man known to me. He has missed the bus of real life.

Of course, there are many poor men, who have never had this man's success in amassing riches, who are just as miserably devoted to money as he is. It is not the size of a person's purse that counts, but his use of it, and his attitude towards it.

On the other hand, there are countless wealthy men who are good stewards of their possessions, and share and give with lavish hand, and with a noble sense of their personal responsibility. All of us can name men of wealth who are generous, public-spirited and wholly animated by the spirit of the Scripture which declares that "to whom much is given, of him shall be much required.'

Talking Twaddle About Money

With unconscious hypocrisy, pious persons often affect to despise money. They talk twaddle about it, assuming poverty to be a noble state and prosperity a sign of moral decadence. A moment's honest thinking reveals the unreality of this attitude. Money is one of life's necessities. It may be a beautiful thing or an ugly thing, according to the use that is made of it. Money is a symbol; it represents food and raiment and shelter and education and proper pleasure and unselfish service.

We talk of 'dirty dollars," when we really mean dirty hands. With greater truth we could talk of 'beautiful dollars," which support families; create comfortable homes; spell opportunity for youth; provide for the sick and needy and maintain all the beneficient works of civilization.

So long as money is legitimately used, it is one of the best tools of men. But when money is loved for itself; when it ceases to be a servant, and becomes a master, then it is an evil thing. "The love of money is a root of all evil," says Scripture. The power of avarice to mar a life is one of the human tragedies.

Sages of Ages Say.

These perils of wealth to the human soul have been the theme of all the philosophers, back to most ancient times. The sages of the ages are one in saying that the vanity of wealth, the love of money, impairs the finer aspects of the human spirit. Man was meant to be more than a money bag. He is measured, by man and by God, according to the fatness of his soul.

Rule of gold can never take the place of the Golden Rule. As our text has it:

"He that trusteth in his riches shall fall;
But the righteous shall flourish as the green leaf."

Only God-rule can save us from gold-rule. What Dr. Chalmers called "the explusive power of a new affection" may transform materialism into spiritualaity.

SEVEN SENTENCE SERMONS.

One cannot always be a hero, but one can always be a man.—Goethe.

Nature is but a name for an effect whose cause is God.—Cowper.

Love is not love
Which alters when it alteration finds;
Oh no; it is an ever fixed mark
That looks on tempests and is never shaken. —Shakespeare.

God has two thrones, one in the highest heaven, one in the lowliest heart.—Van Dyke.

How beautiful upon the mountains are the feet of him that bringeth good tidings, that publisheth peace.—Isaiah 52:7.

In life's small things be resolute and great.
To keep thy muscles trained; knowest thou when Fate.
Thy measure takes, or when she'll say to thee
"I find thee worthy; do this deed for me."—Lowell.

Every man, whatever his speculation opinion, knows better than he practices, and recognizes a better law than he obeys.—J. A. Froude.

NEW FORD MODELS ON DISPLAY FRIDAY AT CALKINS-DUBLIN

MANY CHANGES AND IMPROVEMENTS NOTED IN 1941 CREATIONS

Models of the new 1941 line of Ford passenger and commercial vehicles will be placed on display Friday in the salesrooms of Calkins-Dublin, Inc., at the corner of West Collin and North Twelfth street.

Increased wheelbase and overall length have permitted engineers to add spaciousness in the new creatioss, and added comfort is provided by bigger tires, luxury seat cushions, new softer springs aid comfort. Foot and head room have been increased, window areas are larger, and seats are wider. Running boards are almost invisible under the curved doors.

The cars boast a new electrically welded "x" type frame, and front and rear springs have increased effective lengths. Shock absorbers have more sensitive adjustments to match the springs, and a new ride stabilizer minimizes sidesway and improves steering.

Other improvements include the brakes, a new hood lock knob under the instrument panel, locks on both front doors, redesigned fenders, and dashes, hidden gasoline filler caps, lighted luggage compartments, ventilating front windows, radio grilles in all models, twin windshield wipers with speed controls, twin sun visors, fender parking lights, two-spoke steering wheels, and other items.

One new body type has been added for 1941, a sedan coupe, which combines a close packed body design and yet seats six people comfortably. A total of ten body types and nine color choices are available.

A cordial invitation has been extended the general public to inspect the automobiles by Messrs. R. L. Calkins and S. L. Dublin.

A new four-cylinder engine for truck and commercial car use has been included in the Ford line for 1941.

INTERNATIONAL

(Continued From Page One)

ese government now was convinced the United States is unalterably opposed to Japan's "legitimate" expansion in the Far East. He also declared that a non-aggression pact between Japan and Soviet Russia was not unlikely.

The Fascist press spoke openly of Spain's present role of "prebelligerency" as Italy's foreign minister, Count Galeazzo Ciano, left for Berlin to concude diplomatic negotiations bearing on the reported "collaboration of Spain and the axis powers."

Informed quarters in Rome pointed out that the fall of Gibraltar, which guards the west gate of the Mediterranean sea, would enable German troops to cross the narrow Strait of Gibraltar to North Africa—thus facilitating the axis powers' widely-heralded program of breaking England's hold on the dark continent.

Other developments in the international picture broke swiftly:

1. Great Britain, smarting under the withdrawal from Dakar after a 3-day naval siege of the French West Africa capital, sent her bombers against Berlin in the longest raid of the war on the German capital.

Three Big Warships Damaged.

2. Authorized French quarters in Vichy said heavy damage inflicted on the British naval squardon at Dakar made it impossible for the British to continue the attack without reinforcement from fleet units needed elsewhere. The French admiralty reported three British warships were hit at Dakar—the 29,150 ton battleship Resolution, the 31,100-ton battleship Barham, and the 10,000-ton heavy cruiser Kent. The 32,000-ton battle cruiser Renown was reported badly damaged by a direct bomb hit during a French air raid on Gibraltar.

3. RAF bombers pounded German "invasion ports" along the channel for three hours and 45 minutes, setting great fires stretching from Boulogne to Dunkerque.

4. The British air ministry reported RAF raiders srored hits on Berlin's big Tempelhof airdrome, a munitions factory, a railway yard and important power stations. (Berlin acknowledged five killed, five wounded in British raids over Germany, with eight Berlin apartment houses destroyed during a 5-hour attack.)

5. London's millions emerged from underground shelters after the 19th consecutive dusk-to-dawn assault. Fires were started in many parts of the London area, but the authoritative British press association said an intense "flaming onion" barrage by anti-aircraft guns had kept the Nazi raiders away from the heart of the rubble-strewn capital of Empire.

Warships Bombed at Plymouth.

6. Hitler's high command reported that waves of Nazi warplanes "effectively bombed" British warships anchored near Plymouth as well as military barracks near Dungeness. Other attacks were directed at Portland, Southend, an airplane factory at Filton, and London's port facilities on both sides of the Thames.

With only mild murmurs of complaint, Britons generally accepted abandonment of the siege of Dakar—another reversal in the list which already included Norway, Flanders and Somaliland.

The ministry of information said the decision was necessitated "when it became evident that only a major operation of war could secure the fall of the port"—an action the British government desired to avoid.

A typical London newspaper headline read: "Fleet withdrawn from Dakar—no wish to fight French." But the News Chronicle published an article by Vernon Bartlett, journalist member of parliament, storming against British "delay and hesitation" and declared it has been decided that Germany "must be allowed another success."

Once again, calm waters in the Strait of Dover favored a cross-channel invasion attempt, but a haze shrouded the French coast and hid any activity by Hitler's great troop-bearing armada.

Corporation Court.

One charge of intoxication and one of speeding brought offenders into the Corsicana Corporation Court Thursday.

BUDGET OF FIRST BAPTIST CHURCH IS PLACED AT $20,000

Items aggregating $20,000 were adopted as the budget for the First Baptist Church for the ensuing year at the church conference held Wednesday evening. C. A. Middleton, chairman of the board of deacons, presided during the business session. The budget as proposed by T. L. Tyson, chairman of the finance and budget committee, was adopted. The budget had been approved by the deacons.

Fixed items amounting to $15,000 were included as follows:

Pastor's salary, $3,600; educational director's salary, $2,100; secretary's salary, $900; organist's salary, $400; choir salaries, $270; office help, $240; janitor's salary, $720; extra janitor help, $120; literature for auxiliaries, $750; W. M. U., $800; Buckner's Orphan's Home, $1,200; Baptist Standard to membership, $660; insurance premiums, $900; utilities, $600; office supplies, postage, etc., $600; music, $75; ministers' retirement fund, Texas Baptist Convention plan, $124.20; district missions, $240; associational missions and minutes, $70; repairs, sundries and incidentals, $480.80; training schools, B. T. U., S. S. and S. V. B. S., $150.

An item of $5,000 was included for the co-operative program of Texas and Southern Baptist Conventions, including all missions, hospitals, schools, colleges and theological seminaries, debt retirement on Texas state and southern agencies and institutions, etc.

Sick and Convalescent.

J. M. Galloway, 53, employee of the Topaz Oil Company in eastern Navarro county, was severely burned about the arms and legs Wednesday while firing a boiler. The flames are reported to have "bucked out" of the boiler, inflicting the burns. Galloway is in the P. and S. Hospital. His condition is not regarded as serious.

Charley Albright of Houston, contestant at the rodeo, received emergency treatment at the P. and S. Hospital Wednesday night for bruises about the shoulders. It was reported he was thrown from a Brahma steer against the side of the arena.

A daughter was born to Mr. and Mrs. Edward Aston Thursday morning at the P. and S. Hospital.

Mrs. R. L. Rascoe and baby were taken home from the P. and S. Hospital Thursday morning.

Would Limit Presidential Term.

WASHINGTON, Sept. 26.—(AP)—J. W. Creighton, president of Hastings College, Nebraska, expressed the opinion before a senate judiciary subcommittee today that America's rearmament had increased the necessity for a limitation on the presidential term of office.

Testifying at a hearing an a constitutional amendment to provice a single six-year term for the President, Creighton asserted that "the danger of dictatorship is greatly enhanced by the turn in our military situation."

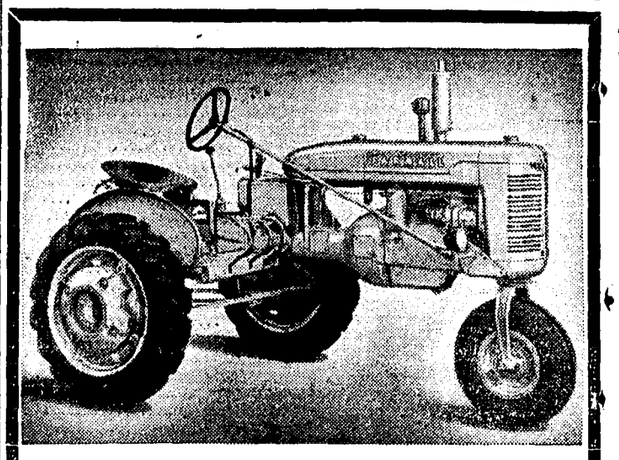

"Most of us," he said, "have given little thought to the fact that the president of the United States is also commander-in-chief of our military forces"

MACKENZIE

(Continued From Page One)

Hitler's chief purpose in bringing in Spain would be to secure bases for operations against Gibraltar with the idea of smashing British control over the Western Mediterranean and the gateway into the Atlantic.

This threat would be doubly strong in view of Britain's astonishing abandonment of the siege of Dakar, French West Africa, in support of General de Gaulle, leadtr of Frenchmen still fighting the axis. Lacking this strategically vital port—naval and air base capable of controlling the South Atlantic—it would be a catastrophe to Britain to lose Gibraltar.

ARE YOU ATTENDING THE COUNTY FAIR?

If you are not you are missing a real treat. While there be sure to visit our booth and make it your headquarters.

We take pleasure in showing you our merchandise which we are proud of, because it is well known and considered by all who know it to be the leading and best merchandise manufactured for the home and farm.

REMEMBER that on OCTOBER the 12th we will sponsor the Corsicana High School band at the DALLAS FAIR. Make that CORSICANA and NAVARRO COUNTY DAY.

EMBARGO

(Continued From Page One)
meet the rapidly expanding requirements of the defense program in this country."

No mention was made of Japan, a big buyer of the scrap, but the action was regarded by some authorities as additional indication of this country's dissatisfaction with Japan's policies in the Far East.

Confers On Phone With Hull.

Stephen Early, presidential secretary, told reporters in response to questions that Mr. Roosevelt had been in almost continuous consultation, mostly by telephone, with Secretary Hull, but that he knew of no major conference scheduled by the Chief Executive to consider touchy far-eastern problems.

For some time, exports of the scrap metal have been handled under a licensing system. Licenses will continue to be issued until October 16, Early said, and after that they will be granted only for shipments to Western Hemisphere nations and England.

A new $25,000,000 loan from the Export-Import Bank to China was announced last night as officials considered methods of upholding the policy of the status quo in the Pacific.

Bringing to $70,000,000 the amount of Export-import aid to China since the Sino-Japanese war began, the new loan assures continued supplies of arms and other war materials from the United States.

It increased speculation of the possibility that Britain, with American encouragement, would reopen the Burma road next month when the present three-months agreement with Japan expires.

Closing of the road, an important supply artery for China, was opposed at the time by the United States and Secretary Hull has made clear that thas policy remains unaltered.

Japan Set Record In 1939.

NEW YORK, Sept. 26.—(AP)—Steel industry sources estimated today that Japan could acquire not more than 100,000 tons of steel scrap from the United Sates before the presidential restrictions go into force Oct. 16.

Until this year, Japan was the United States' biggest customer for scrap. This year Great Britain became the greatest buyer of the steel-making essential.

In 1939, Japan set a record in the buying of scrap steel and iron in this country, obtaining 2,270,076 tons. The rising demands of the British Empire cut heavily into eastern seaboard supplies, however, and in the first eight months of this year Japan bought only 742,267 tons.

Announcement.

There will be preaching at the Bazette Baptist church Sunday at 11 a. m. and at Powell Sunday night at 8 o'clock.

R. J. FLETCHER, Pastor.

HE'S THE MASTER TRAINER

Alfred Court, grandson of the Marsuis de Clapier, is known wherever wild animal men gather as "The Old Master," although he is not old. The fact that Court has taught their profession to the outstanding wild animal trainers of Europe is the reason for the laudatory phrase—that, and his reputation of being the greatest trainer of mixed groups of jungle beasts that ever lived. He is the only man to perform together Polar bears, lions, tigers, Himalayan bears, black leopards and panthers, cougars, pumas, Siberian Snow leopards and spotted panthers and leopards—this, in thrilling violation of every jungle law.

Now Alfred Court and his great mixed groups of educated beasts of jungle, plain and frozen wastes are to be seen for the first time in America—the sensational superfeature of the Ringling Bros. and Barnum and Bailey Circus, coming to Corsicana, Tuesday, Oct. 1, matinee and night. These huge troupes of wild animals, so widely and unbelievably ranged as to species, have, with Alfred Court and his assistant trainers, literally taken the country by storm, and Court is the talk of the town wherever the Big Show exhibits.

SHIP CAPTURED

(Continued From Page One)
crew of the Weser have been transferred to the Prince Robert and the prize ship is being escorted to Esquimalt, B. C., the navy minister said.

In July there was an unconfirmed report that the Weser was being equipped as a raider, with paint taken aboard to camouflage her. This word came from Costa Rica after she had moved to Manzanillo.

British have suspected the Weser of supplying fuel to German submarines. She took aboard more than 100,000 gallons of Diesel oil while at Punta Arenas, Costa Rica.

Ben Hubbard Found Dead With Gun Near

Ben Hubbard, aged about 60 years was found dead at the residence of Mr. and Mrs. W. A. Hargis in the Navarro Mills community Wednesday night about 10:30 o'clock with a shotgun wound in the right side of the neck.

Judge Ben Carroll, Blooming Grove justice of the peace, conducted an inquest Wednesday night and Thursday afternoon returned a verdict of "death from shotgun wounds, self-inflicted," he reported. Judge Carroll, Sheriff Cap Curington and Seton T. Holsey, assistant criminal district attorney, conducted an investigation.

The officers reported that a mattress had been placed on the front porch and Mr. Hargis' gun was used. The body was discovered by Mr. and Mrs. Hargis when they returned to their home after visiting neighbors Wednesday night, officers said, and no intimation of foul play was discovered. No note was found, it was said.

The deceased was employed by Mr. Hargis and was alone at the time of the tragedy.

Funeral services were conducted Thursday afternoon at 2:30 o'clock at Dawson with burial in the Dawson cemetery. Funeral rites were directed by the Wolfe and Dobson funeral home of Dawson.

A brother, Early Hubbard, of Brushy Prairie, and other relatives survive.

Sick and Convalescent

Mrs. Wallie Levy, who underwent a tonsilectomy recently at the P. and S. Hospital, was taken to her home today.

Mrs. Claud Denbow and baby were dismissed from the P. and S. Hospital Wednesday night.

CORSICANA, TEX., SEPT. 27, 1940

DELIVERANCE

There was a kick in the message sent recently to the conquered Poles by Hugh Dalton, British minister of economic warfare.

Britain, he said, will call "at a chosen moment" upon all the nations that Adolf Hitler has vanquished, to "rise and greet the armies which will land from England upon the shores of Europe."

It would be hard to find in history a more nervy statement, when you consider the unbroken chain of Nazi conquest, the present state of continental Europe and the perilous plight in which Britain itself stands today.

Even while the fate of England hangs in the balance, and that nation is in the gravest danger it has been for 900 years, this spokesman has told the Poles that "the hour of their deliverance is near," and Britain will come to their rescue "when it has drowned and destroyed any Germans who attempt to invade our island and has conquered the air over Germany."

You might have to go back to the old Hebrew prophets to match that.

STATE LAW UNIFORMITY

It is hard to believe that the National Conference of Commissioners on Uniform State Laws has been in existence half a century. But it celebrated a 50th anniversity recently and announced that its work had brought about the adoption of nearly 600 acts by legislatures which reduced conflicts among the laws of the 48 states.

There's more work for the commissioners to do, and for the legislatures. A motorist traveling across a number of states is lucky if he escapes arrest in most of them for innocent infraction of traffic laws. Speed limits vary, signals vary, traffic signs vary. And highway regulation is only one branch of state legislation.

Still, if 600 laws have been enacted reducing conflicts, it is possible that 600 more will come in the future and that these "united" states will manage to retain their individuality and sovereignty and yet cooperate in matters in which uniformity would be a blessing to all concerned.

HEALTH VEGETABLES

The agricultural department of New York may be getting itself into trouble by declaring that tomato juice will serve the purpose of spinach. Such a revelation may swing over to the red vegetable and its potable product a lot of people who have continued loyal to the green vegetable. And then what will the spinach growers do? There may yet be a vegetable war among the vegetable gardeners. There might be a little rebellion among consumers, too. Some addicts may stick up for spinach.

Compromise, however, is not impossible. Peace might be kept in the vegetable and dietetic worlds by combining the two vegetables in question. One happens to be acid and the other alkaline. Thus they tend to neutralize each other in taste and some people think they taste very well together. So there might be a tomato spinach drink evolved. That would be a triumph of compromise.

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

WHEN ALL'S WELL

These things I am sure are worth owning:
A garden to plant in the spring,
Some useful devices for loaning
To neighbors who come borrowing,
A pot or a kettle or spices,
A novel or two which you've read,
A pantry which hunger suffices
And a durable roof over head.

These gladde nman's heart for the minute:
The blossom and fruit of a tree;
A cage with a singing bird in it,
The smile of a child at his knee.
Thet flavor of food on his table,
In winter a chair at his fire;
For his wife either mink coat or sable—
Then little is left to desire.

These are every man's lesser successes:
His home and his lawn and his car;
His women folks' bonnets and dresses.
All's well if sufficient they are.
All's well if there's coal in the cellar
And meat in the pantry and bread
With a warm coat and gloves and umbrella
And a durable roof over head.

NORWAY'S TROUBLES

The other day the Norwegian legation in Washington announced that all captains of Norwegian ships had been warned against a Nazi lure to get them back to Norway and into Germany's power. German authorities in Norway have been using radio to urge them to "rally to the homeland." Since the homeland is under German domination it was really a call to enter a trap.

The legation's statement emphasized the stand of the Norwegian government, now in exile in England, which has placed all Norwegian shipping at the service of "free and independent Norway." Captains of ships and trade officers are to take orders only from the Norwegian trade missions now in London, Montreal and New York.

Many seamen who have been away since the invasion last spring are terribly anxious about their homes and families in Norway. The impulse to heed a call to the "homeland" must be strong. But it will be resisted by all who realize that Norway's ultimate salvation lies in such resistance and in co-operating with anti-Nazi forces outside of the stricken country.

ROMAN WARNING

Italian newspapers, annoyed by the British leasing of naval bases to the United States for defensive purposes, are telling the world that it's an American conspiracy against Britain.

The idea is that Uncle Sam is trying to get his foot in the door, in various strategic places, in order to grab territory and "break up the British Empire." Italy is also warning Latin-American countries not to let us get any such footholds there.

Fortunately our neighbors trust us more than Italy's do.

CONSPICUOUS TARGETS

In ancient Rome, persons seeking political office were supposed to appear in public places clothed in white togas. The white of the natural wool was brightened with chalk. From the Latin word for white, "candidus," came the word "candidatus," meaning the person who wore white for that particular purpose, and finally "candidate."

We kept the word but discarded the custom. Maybe rival candidates didn't throw mud at each other in olden times. But it is just as well that candidates today aren't required to wear white.

We used to think radicals were ignorant, but Dr. Goodwin Watson of Columbia University says they're found mostly among the educated.

These are tough times for kings, since Hitler started kicking 'em around, but the dictators can tolerate 'em as long as they don't start anything.

France will never clear its record by punishing innocent and patriotic Frenchmen for its collapse.

Hitler can "dish it out" better than he can "take it."

EARTHQUAKE?

Open House Held In New Home Economics Cottage at Kerens

KERENS, Sept. 24.—(Spl.)—Interested townsfolk by the score attended the open house given Thursday evvening from 8 to 10 at the new Home Economics Cottage on the Kerens school campus.

The affair, which was sponsored by the Parent-Teacher association, was in the nature of a housewarming for the cottage, and a reception in honor of the school faculty, and the school board.

A receiving line composed of Mrs. T. L. Whorton, P.T.A. president, and members of the faculty greeted guests, each member introducing the one next in line. This feature being necessary as it was the first opportunity afforded most callers of meeting the large number of new faculty members.

Members of the hospitality committee saw that each one present was shown the spacious rooms consisting of the living or reception room, large kitchen-dining room, powder room and the many closets, cupboards and lockers that go to make a building of this sort complete.

The school board, Supt. Wilemon, Charles Reese, who designed the cottage, Herman Hall, who constructed it, and many others who had a part, received congratulations in quantity for the beauty of the modern plan, designed much as a real home with hardwood floors, venetian blinds, living room with lovely furnishings of broadloom rug, occasional chairs, Duncan Phyfe drop-leaf table, period sofa and a kitchen complete to the most minute detail.

Here in the big many windowed culinary section were found four cooking units of two beautiful electric and two modern white gas ranges, four mill made kitchen cabinets, and four dining tables seating six each, with their accompanying chairs.

From one of the tables, with a huge tray of autumn fruits and leaves, gracing one end delicious ice punch and cookies were served. At the desk accupying one corner of the room, several senior class members were in charge of a guest book.

Music was furnished throughout the evening by Harold Roberts and Mrs. A. S. Pritchard, pianist, and Mrs. Lacy Garrett and Mrs. William McCluney, violinists.

CORSICANA WATER PROJECT APPROVED; $10,000 IS INVOLVED

SAN ANTONIO, Sept. 25.—(AP)—Authorization to begin work on WPA projects involving expenditures of $722,722 in Work Projects Administration funds and $482,617 supplied by local governmental agencies, has been given Texas district managers, Stearns S. Tucker, deputy state administrator, announced here today.

Projects by counties included:

Denton—Improve water system at Denton; WPA $17,859, city $8,986; workers, 91.

Hidalgo—Recondition and line irrigation canals in water control and improvement District No. 1 near Edinburg; WPA $34,394; district, $24,019; workers, 112.

Jefferson—Improve streets in residential sections of Beaumont; WPA $18,009, City $13,011; workers, 105.

Navarro—Improve water system at Corsicana; WPA $5,122, city $4,872; workers, 52.

Dawson-Ennis Night Game Moved to Day

DAWSON, Sept. 26.—(Spl.)—Dawson Bulldogs and the Ennis B football cub met here Thursday afternoon at 4 o'clock instead of playing Thursday night under the lights.

Workmen were unable to complete the work of installing the arcs at the local gridiron in time for use tonight, necessitating the moving up of the game to this afternoon.

Future Farmers Of Kerens Organized For 1940-41 Term

KERENS, Sept. 25.—(Spl.)—Under the supervision of Roy E. Cloud, vocational agriculture teacher in the Kerens High school the Future Farmers of America of this area met and organized the class of 1940-41, with the election of the following officers: President, Reed Albritton; vice president, Willard Mayo; secretary, Calvin Franklin; reporter, Slay Mayo; treasurer, Billy Bain Tyrus; parliamentarian, Roy Mayo, Jr.; historian, George Flourney; song leader, A. C. Thomas; watch dog, James Luther Whorton.

The vocational agriculture department has made an outstanding record during the past years and it is expected that the new officers will be an inspiration to the group of boys engaged in this laudable work.

OPPORTUNITIES FOR YOUNG MEN WISHING TO ENLIST IN ARMY

Col. J. A. Moss, commander of recruiting detachments in the northern part of Texas, visited Corsicana briefly Wednesday morning conferring with Sgt. Strickland, local recruiting officer.

Exceptional opportunities are now open to young men who enlist in the army at the present time for the regular three-year term, according to Col. Moss, who pointed out the regular military forces would need extensive supplies of adequately trained instructors to carry out the provisions of the selective service bill. Complete army training, he insisted, could not be carried out in a single year of service, and the longer period has been found to be essential.

Col. Moss stated no appropriations had been made by congress to care for one-year enlistments, and he had received no orders up to this time to accept volunteers for the smtller term. He also declared it was imperative that both the regular military units and the National Guard and other reserves be kept fully manned.

He was accompanied to Corsicana by his son, Lieut. Com. R. S. Moss, recently detached from an airplane carrier with the Pacific fleet of the United States navy and now assigned to a tour of duty in Florida.

ADDITIONAL RAINS TUESDAY NIGHT MADE TOTAL 1.35 INCHES

The shower Tuesday night amounted to .22 of an inch of rain here. Prior to the rain Tuesday night 1.13 inches had fallen here since Saturday, making a total of 1.35 inches.

All of the rains have fallen slowly and the moisture has been absorbed by the ground, making the rain equal to much more if it had fallen quickly.

Cotton picking has been delayed but no damage has resulted from the rain.

NEW BAZETTE TEST DRILLING PLUG AND TO START SWABBING

Drilling of the plug of the W. W. Lechner No. 1, E. Tramel, oil test in the Bazette field in East Navarro county, was reported under way Wednesday and swabbing will likely be started Thursday morning in an effort to bring in a producer.

A drillstem test of the new test last week showed approximately 600 feet of oil in a twenty-minute period, with some indications that the production might be coming from the lower Woodbine horizon.

This test is about 4500 feet almost due west of the wells brought in several months ago by the Butler-Calhoun and Topaz Oil company.

Waxahachie Girl To Wed Corsicana Man On September 30th

Mr. and Mrs. James Hopkins of Waxahachie announce today the approaching marriage of their daughter, Miss Elyvn Hopkins, to Jimmy Settlemeyer of Corsicana, Sept. 30, in Waxahachie. Mr. Settlemeyer is the son of Mrs. Ruby Laseter of this city, and is a recent graduate of Chanute Field, Rantoul, Ill., where he was in the mechanical division of the air base.

The couple plan to reside in San Antonio.

CORSICANA HIGHWAY CONTRACTOR LOW BIDDER ON PROJECT

AUSTIN, Sept. 26.—(AP)—A fall construction program costing approximately $2,000,000 was a step nearer reality today as the highway department announced low bidders on 43 projects.

By counties, they included:

King, 8.1 miles flexible base and double asphalt surfacing on U. S. 83 from seven miles south of Guthrie to Stonewall county line, Public Construction Co., Denton, $79,024.

Jefferson, 10.5 miles grading, drainage structures and concrete pavement on U. S. 69 and 90 and State 105 from intersection of U. S. 69 and 90 to nine-tenths mile northwest of Rosedale and from U. S. 69 west 4-2 miles, Gulf Bithulic Co., Houston, $355,422.

Anderson, 3.6 miles flexible base, prime coat and seal coat on feeder road from Neches to Todd City, C. F. Gorman and Co., Marshall, $16,104.

Harrison, 8.6 miles of grading, drainage structures and select material on feeder road from 5.6 miles southeast of Marshall to fourtenths mile northwest of Elysian Felds, C. F. Gorman and company, $84,739.

Cherokee, 5-3 miles grading and drainage structures on State 294 from 5 miles west of Alto eact to Alto, E. W. Hable, Corsicana, $52,267.

Cass, .8 mile flexible base and cutback asphaltic concrete pavement on State 77 and 11 in town of Atlanta, C. F. Gorman and Co., Marshall, $15,427.

FORTY THOUSAND TRENCH SILOS FOR TEXAS PREDICTED

COLLEGE STATION, Sept. 26.—(Spl.)—It seems like he might be stretching it a little, but E. R. Eudaly, dairyman ,with the Texas A. and M. extension service, looks for 40,000 trench silos in Texas by the end of 1940.

At that he has a pretty good basis for his estimate. In 1931, there were 18 trench silos in the state. By 1933 there were 435, by 1935 1,187. From then on, by years the story is 1936 5,841, 1937 9,483, 1938 17,048 and 1939 28,831.

To reach the 40,000 estimate, Texas farmers and ranchmen would have to build and fill 11,169 trenches over and above what they did in 1939.

Eudaly admits that the weather from now on will have a lot to do with it. For instance, an early freeze might kill several hundred thousand acres of late sorghum, and make it almost worthless for grain or bundle feed. On the other hand, experience has shown that frost-bitten feed makes good silage.

Thornton Man To Be District Clerk Limestone County

GROESBECK, Sept. 26.—Weldon Williams of Thornton Wednesday was appointed district clerk of Limestone county by District Judges H. Fountain Kirby and Lex Smith to fill the unexpired term of Mrs. Ruby Lawley, deceased.

The Limestone County Democratic executive committee will name the nominee to run for the full term in the November general election. Thre are about 50 applicants for the post.

Mrs. Lawley died at her office several days ago with a heart attack. She had been connected with the clerk's office for many years, and was re-nominated in the Democratic primaries the past summer.

HEALTH, BEAUTY AND POISE

By VERONICA DENGEL

FROM THE MAIL BAG.

M. S.—I very much want to have long finger nails, but they seem to grown just so long, and then break off. The nail seems strong enough, but continues to break. What can I do to have long nails?

Veronica Dengel

The trouble no doubt is with your manicurist—or are you the manicurist? In either case, the first and most important rule is to let the corners grow out. If the nail is filed down at the sides, this makes the nail less wide at this point than it should be, and of course as it grows out there is not enough breadth to carry the length—and it breaks off. Forbid your manicurist to file down at the sides; and let the nail grow straight out until the sides reach the tip of the finger. Then the naail can be well rounded from this point. But you can easily see that this will immediately give you stronger nails that will resist breaking off at any slight pressure. And too, they will be in better balance. Pointed nails are not at all smart—they should gradually taper off into a nice oval.

Another thing that helps in this problem of growing long nails is not to remove your polish too frequently. I really believe it is the polish remover that may have some possibly harmful effect on the nails—not the polish. It is much better to put another coat of polish over the present one. If you will do this about every five days, there will not be any ridge at the root because the nail will have grown so little that it will not be possible. Often I have had as many as six and seven coats of polish on my nails over a period of a month. I have my manicure just the same each week but don't remove the polish oftener than once a month; unless, of course a nail becomes badly scratched or peels off at the ridge. The polish makes the nail stronger, and you will find it keeps them from bending so easily. This trick actually works—because my nails are long, and I use a typewriter a lot. Try it.

V. W.—I never seem to have money for clothes when I need them. Of course, I don't have very much to spend—only $5.00 a week—but this just seems to go for the little acessories—shoes and things. And still when I realize that this is $260.00 a year, I really should have more to show for it than I do.

V. W., your problem is one that faces many girls. It is unfortuntae when you look back and see how little you have for so much. But it is quite possibly due to the fact that you do not plan your buying. I am sending you a clothes budget which I have worked out for girls with a $5.00 clothes allowance, and I hope it will help you.

(This budget is available to any Just send a self-addressed, stamped envelope, and it will be mailed to you.)

Many Kerens People Attend Fair Opening

KERENS, Sept. 26.—(Spl.)—Kerens people in great numbers were in Corsicana Tuesday morning for the opening parade of the Corsicana Livestock and Agricultural Show. Quite a few from here participated in the parade, the largest Kerens representation being, as usual, the highly efficient Battery E, 132nd Field Artillery, who rode with the Battery D of Corsicana.

School children attending reported at school and were not counted absent, thus obtaining a part holiday in honor of the occasion.

AAA PROGRAM FOR TEXAS THIS YEAR CLOSES ON NOV. 30

COLLEGE STATION, Sept. 26.—(Special).—In all Texas counties except a few in the extreme southern portion of the state, the 1940 AAA program closes Nov. 30.

For twelve counties—Brooks, Cameron, Duval, Hidalgo, Jim Hogg, Jim Wells, Kenedy, Kleberg, McMullen, Starr, Willacy and Zapata—the closing date has been set for Oct. 31.

Farmers and ranchmen participating in the AAA program must complete soil-building and range building practices by these dates if they expect to receive credit on this year's program, George Slaughter, chairman of the state AAA committee, explained.

The chairman urged that all farmers and ranchmen co-operating with the program try to complete as much conservation work as possible before the deadline in order to earn the bulk of the maximum amount available for that purpose under the program. The maximum amount for each farm is determined on a basis of the acreage of non-depleting cropland non-crop open pastureland, vegetable allotment, and commercial orchards on the farm. To receive these payments, the producer is required to carry out approved soil-building practices. For ranchers a similar allowance is set up, based on the number of animal units in the grazing capacity and the acreage of rangeland.

Ill In Dallas

KERENS, Sept. 26.—(Spl.)—Friends of Mrs. Lula Sherrill, who recently moved from Kerens to Dallas, will be sorry to know she is ill at the Medical Arts hospital there. At last reports her condition was somewhat improved.

Kerens Chamber Of Commerce Plans For "Hi, Partner," Day

KERENS, Sept. 26.—(Spl.)—Fifty members of the Kerens Chamber of Commerce met at Lamb's cafe on Monday evening at 8 o'clock for another dutch dinner and executive meeting. The meal on this occasion, was in the nature of an oyster supper with the usual trimmings.

During the business session, presided over by Roland Mays, secretary of the chamber, plans were completed for an enlargement of the past "Hi, Partner" day, which proved so great a success, and brought more people to town than had been on the streets at one time in many years.

When the idea of making the coming October 12th, already designated as the next date for the novel event, bigger and better in every way the premium list was expanded and the pairings of partners plan was made easier.

Among other items of interest was the appointment of a committee to herve for the annual fall charity drive put on at about this time each year. Charles Reese was named chairman of the committee and granted the privilege of selecting his fellow workers.

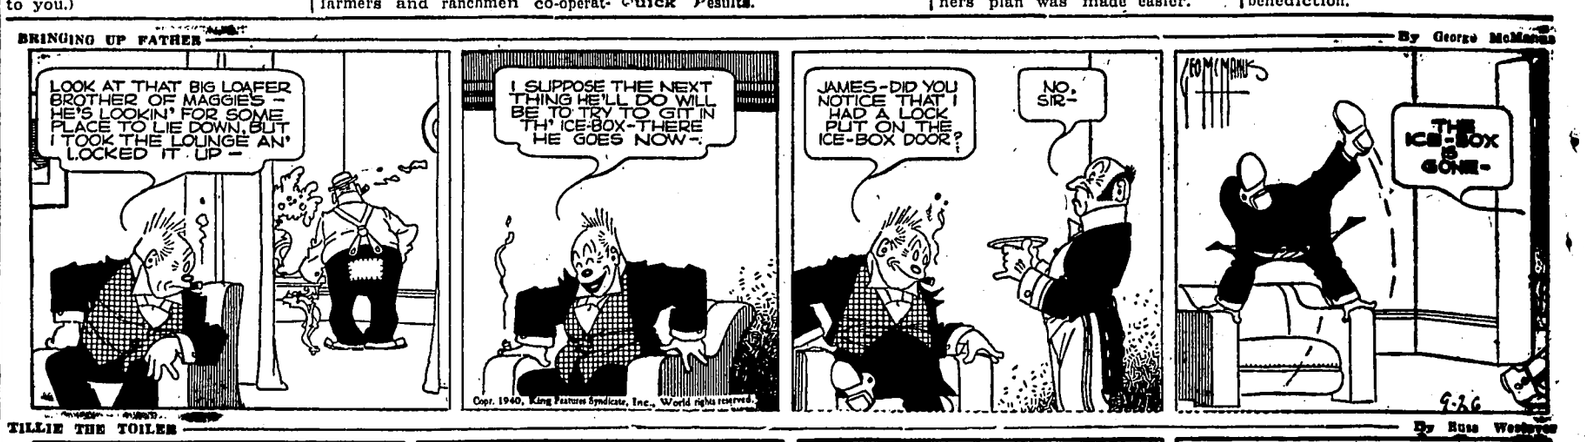

Democracy And Religion General Theme Senior Hi-Y

Democracy and religion will be the central theme of programs to be presented before the Senior Hi-Y club during the coming year it was decided at a meeting of that organization Wednesday night at the YMCA.

About 40 members were present and President Joe Terry presided. Fred Graham, new club sponsor was in attendance.

Several reports were given on the Hi-Y leaders conference held recently in Dallas. A devotional was given by Billie McNutt and Gene Cummings pronounced the benediction.

Pair of Yearlings (one bull and one heifer): First, Wheelock; second, Harrisdale; third, Lanius; fourth, Jenkins; fifth, Edens; sixth, Mitcham; seventh Black and Largent.

Pair of calves (one bull and one heifer): First Edens; second, Lanius; third, Edens; fourth, Hering; fifth, Wheelock; sixth, Wheelock; seventh, Harrisdale; eighth Allison.

Among the main points of interest in the main exhibit building is the display of sweet potato processing and by-products, jointly presented by the Roane 4-H club and the North Texas State Teachers College. In charge of the exhibit and explaining the work is Everett Scoggins, native of Navarro county and a former member of the Pursley 4-H club, who is now holding a research fellowship at the Denton school.

Parade Awards.

Awards for the best entries in the parade Tuesday as selected by non-partisan out-of-the-county judges, follow:

Schools—First, Frost; second. Dawson.

Clowns—First, Alva Taylor (No. 1 in the parade) with his "rooster-drawn" chariot.

Commercial—First, Palace Theater, with the "Boomtown" display, and second, Southern Ice Company truck with the blocks of ice in which flags and flowers had been frozen.

In the educational display competition for Future Farmers of America, the Corsicana chapter with a score of 985 out of a possible 1,000, was awarded first place; Ennis was second, with a score of 965; and Blooming Grove was third, with a score of 961. Waxahachie and Ferris finished in the order named.

First Aid Station.

A Red Cross first aid station is in operation on the fair grounds under the direction of Mrs. W. D. Cross. On the opening day four women were given treatment for fainting and two workmen treated for minor injuries; three additional workmen were treated Wednesday morning.

Results in the judging of the boys' baby beef entries in the senior calf class Wednesday morning follow:

1. Cecil Parker, Powell FFA; 2. Jack Burke, Corsicana 4-H club; 3. Gordon Collins, Coolidge FFA; 4. A. T. Smith, Jr., Corsicana 4-H club; 5. Pat Kay, Coolidge FFA; 6. Olen Bounds, Coolidge FFA; 7. Billy Gene Roney, Emhouse 4-H club; 8. Billy Elmer Watson, Barry 4-H cub; 9. Dan Griffin, Dawson 4-H club; 10. Bill Bowman, Frost FFA; 11. Charles Henry Keller, Ferris FFA; 12. A. T. Smith, Jr., Corsicana 4-H club.

The agricultural building, packed with exhibits of all kinds, was the focal point for a large portion of the visitors on the opening day. Among the most interesting features were the educational exhibits entered by Future Farmer chapters of the Central Texas area. Evidences were easily visible of more care in planning of the various entries, and there was no overlapping as is usually the case. Chapters and their entry subjects included Emhouse, "Crop Rotation;" Blooming Grove, "Use of Bermuda Grass in Erosion Control;" Avalon, "Prepare for Defense Against Erosion Menace;" Ferris, "Cotton Root Rot;" Eustace, "Fall and Winter Cover Crops in Soil Conservation Programs;" Frost, "Poultry;" Kerens, "Year Round Grazing;" Barry, "Balanced Farm Income;" Ennis, "Land Use Planning;" Waxahachie, "Farm Management and Proper Land Use;" Powell, "Control of Blue Bugs;" Corsicana, "Let's Put Land Use Planning on Top;" Palmer, "Improve Texas Cotton;" Mexia, "Legumes—Good Crops for Poor Land;" Italy, "Feeding for Profit," and Mildred, "Better Poultry Management." The Roane 4-H club aided by the North Texas State Teachers College, presented a chemurgic display that was closely studied.

Educational Exhibits.

Educational exhibits were also presented by Navarro county Home Demonstration clubs in very attractive fashion with each display showing some phase of farm life studied by the rural women. The presentations and their subjects included, Bazette, "Teen Agers' Wardrobe—90 Per Cent Cotton;" Pickett, "Milk as a Food;" Roane, "Home Storage of Vegetables;" Corbet, "Corn Planting and Cultivation;" Richland, "Frame Gardens;" Independence, "Cookie Making;" Oak Valley, "Quality Cakes;" Mildred, "Egg Production;" Barry, "Waste Water Disposal;" Stansell, "Well Arranged Kitchens;" White's Chapel, "Reading Center Essentials," and Jones Ranch, "Outdoor Living Room."

Separate departments were also in evidence for the girls' 4-H clubs, textile department, including canned goods, hooked rugs, quilts, crocheting and knitting; judging was in progress in the art department Tuesday with an unusual number of exhibits; other departments were also devoted to general agricultural products and to competition among individual members of home demonstration clubs.

The entire north end of the building was devoted to negro exhibits which included boys' efforts on a display for "Improved Pastures." articles made by negro home demonstration and 4-H clubs, and a general agricultural section.

Judges for the rodeo this year are Lin Huskey of Fort Towson, Okla., and Leo Murphy of Benson, Ariz. Cam Gunter and Mano Miles, well known performers from Mexia, are pick-up men. Officials and special guests of the evening were introduced following the grand entry Tuesday night.

The Draft And You

U.S. May Hardly Feel The "Streamlined" Draft

When Congress passed the Compulsory Military Training Law, it left most of the delidate decisions on the draft to regulations prescribed by the President. This is the first of two articles telling the how and why of the rules and regulatione.

By MORGAN M. BEATTY
AP Feature Service Writer

WASHINGTON—The members of a legion of young American men will soon pop up out of the fish bowl—the fish bowl that's been in Independence Hall ever since the World war draft, or a bowl just like it.

First, about 10,000 capsules will be poured within its wide brim. The capsules will be like the ones your druggist uses for powdered medicine, but deep blue so nobody may see the number on a slip of paper inside each.

Here in Washington they'll mount the glass bowl on a table and stir the capsules with a wooden spoon. Lights will snap on, cameras will grind and notables will step forward to pick out the first capsules. Later the generals will finish the long job.

Behind this business of pulling capsules out of a bowl is nearly a quarter of a century of experience and planning.

Planned for 20 Years

Back in 1920, Congress ordered the Army and Navy to plan for future military emergencies. Six years later the Joint Army and Navy selective service committee went to work. After 1936 the committee called in 30-odd civilian experts, most of them graduates of the World war draft system.

The result of the joint effort: The 1940 draft. The committee expects it to be simple, smooth working and, above all, fair and democratic. Basically, it is the World war draft system all over again, but streamlined.

The minute the conscription law passed, printing orders for 500,000,000 forms—booklets, cards, blanks, questionnaires, in fact, all the paraphernalia of the draft—were ready to shoot out.

The signal for distribution was the President's proclamation for registration.

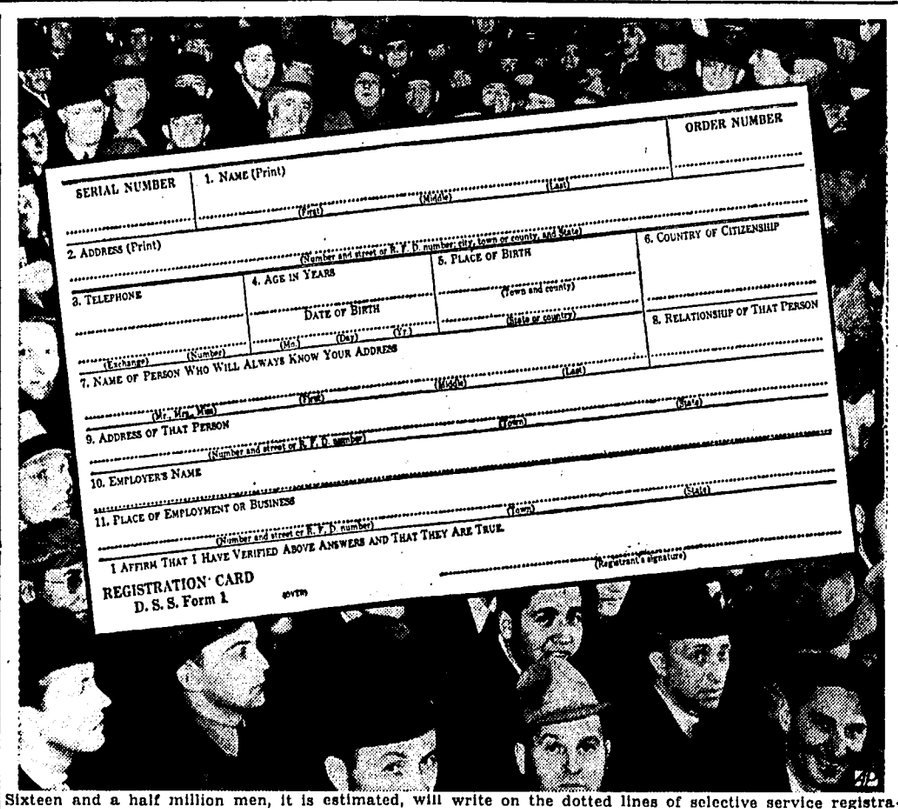

Six thousand, five hundred local draft boards of about three men each are the heart of the selective service system. The President appoints these men with the advice of the governors.

Areas of About 30,000

Each board presides over an area in which about 30,000 people live.

The experts already knows about how many men will register. They use a system known as "weighted census statistics." Assuming a population base of 131,000,000 Americans, they know between 12 and 13 per cent of these, are between 21 and 36, or about 16,500,000.

In the light of World war experience, about one-third of the sixteen and a half millions will fall into class one — subject to immediate military training.

Sixteen and a half million men, it is estimated, will write on the dotted lines of selective service registration cards. Before they write, they will have opportunity to familiarize themselves with the questions by study of enlarged samples.

The Army isn't ready for 5,500,000 men now. Between registration day and February 1 it can handle about 400,000. By the end of the fiscal year on July 1, it can absorb another 400,000.

First Call In November

On the first call, about mid-November, it expects to take in 75,000 of the first quota of 400,000. Another call for 75,000 is to go out a few weeks later, another for 125,0000 soon after, and a final call for 125,000 will fill the first quota.

The next quota of 400,000 in the spring will make up a total well within the fixed limit of 900,000 in any one year. It's all planned so the draft will go first into low gear, then into second, and finally high.

And it's dollars to doughnuts most of us will hardly know a draft is going on. Under the plan now being set up, sparsely populated Nevado will be asked for scarcely 50 men on the first call in mid-November. Crowded New York will contribute only about 7,675.

(Tomorrow: Many are called few are chosen, and why!)

NEW WORK AND WAGE LAW EFFECTIVE FOUR WEEKS FROM TODAY

WASHINGTON, Sept. 26.—(AP)—A 40 hour work-week with time-and-a-half for overtime becomes the law of the land four weeks from today, supplanting the present 42 hour standard for all employers and employes covered by the wage-hour law. The law applies only to those engaged in interstate commerce.

The change in employment standards on Oct. 24, labor economists said, probably will have little effect on job conditions for most of the nation's workers.

Statistics indicate most workers are on a 40-hour week or less, the U. S. Bureau of Labor reporting that in July the average work week in manufacturing industries was 37.3 hours.

A year ago when the wage-hour work week standard dropped from 44 to 42 hours a week, wage-hour officials reported that 2,380,000 workers would have their work week shortened by two hours.

Labor economists estimate reduction of the work week to 40 hours will be felt especially by employers in enterprises running close to the margin between profit and loss.

They have expressed concern over the possibility that in some cases the 40 hour week will mean reductions in weekly pay, especially for hourly paid workers who will lose two hours under the new standard unless they continue on the 42-hour plan and are paid time and a half for the extra two hours.

McCormack House Leader.

WASHINGTON, Sept. 26.—(AP)—An aggressive New Englander, Rep. John W. McCormack of Boston took over the reins today as house democratic leader.

Henceforth, when democrats and republicans clash over legislation, both will be led by representatives from Massachusetts. Joseph W. Martin, Jr., of the Bay State, is the republican leader.

Rep. McCormack was chosen at a democratic caucus late yesterday to succeed Sam Rayburn of Texas, who was elevated to the house speakership after the death of William B. Bankhead of Alabama last week.

School of Beauty Culture Opens Here

Under the competent direction of Miss Exa Fuller, graduate of the Marinello Beauty Institute, classes have already begun in the recently opened Fuller's School of Beauty Culture located at 114 East Collin Street.

Equipped with the latest electrical devices for beauty purposes, the school is one of the most modern and up to date institutions of its kind in the state. Well located and provided with ample floor space, the school has been partitioned and divided into several departments. Each department is well equipped to carry out various phases of the training course which range from basic training to skilled work.

The interior of the building is attractively done in a color scheme of black and white. A class room has been constructed in the center that will comfortably seat thirty students.

Not only a graduate of Marinello Beauty Institute, but Miss Fuller has also had wide experience in beauty shop operation and instruction. She extends a cordial invitation to the public to visit and inspect the school.

DEFENSE

(Continued From Page One)

227,000 to 375,000 men, raise the strength of the national guard from 210,000 to 346,130 men, induct into the service and train a minimum of 695,000 conscripted men, raise the strength of the navy from 145,000 to 175,000 and the marine corps from 25,000 to 34,000.

House, clothe, feed, pay and train these expanded forces.

Increase pilot training and develop enlisted airplane mechanics.

Complete equip and maintain 1,400,000 soldiers on a combat status.

Provide reserve stocks of semi-automatic rifles, anti-tank guns, tanks, light and heavy artillery, ammunition, gas masks, etc.—for a ground force of 2,000,000 men

Provide the army with 25,000 and the navy with 10,000 "serviceable" airplanes.

Begin construction of 202 combatant naval vessels and 57 auxiliary ships.

Provide additional airplane, shipbuilding and other armament production facilities.

Establish and develop new army and navy air bases and stations.

News of County Home Demonstration Clubs

Oak Valley Club

The Oak Valley Home Demonstration Club met with Mrs. E. O. Scarbrough Thursday afternoon, September 12, 1940.

During the business sesion plans were made for the educational exhibit at the Navarro County Fair and also plans for the home demonstration booth where home-cooked food will be served every day of the fair.

The different clubs of the county will have charge of the booth each day.

Friday, September 27, Oak Valley, Mildred and Independence will serve plate lunches consisting of baked chicken, dressing, gravy, potato salad, pickles, ice tea or coffee and pie.

The public is invited to eat at this booth while at the fair.

The recreation for the afternoon was a contest game led by Mrs. Ed Klappenbach in which Mrs. C. M. Stover won the prize.

The hostess served a sandwich plate and ice tea to 19 members and six visitors, Mrs. J. N. Thomas, Mrs. Sheffield, Mrs. W. W. Wisewell, Mrs. M. Owen, Jr., Mrs. C. A. Bell and Mrs. Fred Hill.

The next meating of the club will be with Misses Mittie and Nellie Beale, September 26.—Reporter.

Kerens Methodist Sunday School Class Given Party Friday

KERENS, Sept. 24.—(Spl.)—The Pep Squad class of the Methodist Sunday school, which is composed of junior boys and girls, were given a party last Friday evening at the home of their teacher, Mrs. Jack Fite.

Many interesting outdoor games were played before the hostesses served refreshment plats of sandwiches, cookies, fruit punch and mints.

Members present were: Gretchen Cherry, June Inmon, Joe and James Baxter, John and Billie Newton.

Invited guests were Billijo Harrison, Jean Westbrook, Anita Hall, Henry D. Hulan, Pat Newsome, Evadne Baxter, Lourelle and Mary Ann Fite.

Wanted in Dallas.

A person wanted by Dallas authorities on a burglary complaint was arrested here late Wednesday by county officers.
